Back End (Laravel)

LANGUAGE

ENGLISH

ARABIC

ABOUT ME

I am Heba Al-Amssi, a website developer. My educational journey commenced as a self-learner, utilizing online resources to delve into front-end programming. Upon reaching a proficient level, I embarked on a rewarding endeavor with Gaza Sky Geeks, venturing into the realm of back-end website development. While I am currently in the midst of this journey, I have accumulated valuable experience and expertise in the field.

HOBBIES

I am deeply committed to achieving expertise as a full-stack web developer and actively seek opportunities to collaborate effectively within a professional team environment. My goal is to master the comprehensive skill set required for full-stack web developmen encompassing both front-end and back-end technologies and to leverage this expertise to contribute meaningfully to team-based projects.
